

Diagnostic--Student Report

The Diagnostic--Student Report (also called the Student Diagnostic Report Skill Set Scores) provides an individual skills assessment and other diagnostic information for each of the students you have selected. This report helps teachers determine how to improve their students' performance. It also supports a direct discussion with an individual student's parents or guardians. The report also suggests how the student can achieve additional growth, especially if the student falls below the 25th percentile.

Each student's report prints on a separate page.

The report includes each student's [Scaled Score \(SS\)](#), [Literacy Classification](#), [Literacy Sub-domain Scores](#), [Skill Set Scores](#), and [Estimated Oral Reading Fluency \(ORF\)](#).

Select the options you want to customize for this report on the Report Options page. When you customize this report, you can choose these options:

If it opens in a browser window, to save or print it, use the Adobe Reader buttons. If you try to use the browser's print function instead, only the top of the page will print. (In Adobe Reader X and XI, the Adobe Reader buttons may be hidden until you move the mouse over the document or press F8.)
